

MICHAEL DAMIOLA OSISAMI

Natural Language Processing Researcher
Male. October 28, 1997

With a strong academic background in Linguistics and hands-on experience as a Python developer, I possess a unique skill set that bridges language studies and artificial intelligence. My research focuses on the intersection of Linguistics and AI, particularly in Natural Language Processing (NLP), where I apply computational techniques to analyze, model, and understand human language patterns. I am passionate about leveraging NLP to solve real-world problems and contribute to advancements in AI-driven language technologies.

Education

University of Ibadan

- B.Ed English • 2018
- Master of Arts, English • 2024

Certifications

- Zero To Mastery Academy
Complete Python Developer • 2024
- SuperDataScience - Udemy
Mathematical Foundations of
Machine Learning • 2024
- Pierian Data Academy
Python for Data Science and
Machine Learning (in view) • 2025

Skills

- Research Methodology
- Data Science
- Programming Languages
- Teaching
- Critical Thinking
- Leadership

Professional Experience

Private English Tutor

2024 – Present

Volunteer

- Provided personalized guidance and support to students, focusing on grammar, vocabulary, and comprehension.
- Designed engaging lesson plans to foster a supportive learning environment and encourage academic growth.

English Teacher and E-Facilitator

2021 – 2022

ILearnNG in Collaboration with Queens College, Yaba, Lagos

- Designed and delivered dynamic online learning experiences, combining interactive teaching methods with engaging multimedia resources.
- Created video content to enhance student engagement and comprehension in English language studies.

Phonics Teacher

2019 – 2021

Eastfield Imperial School, Jalingo

- Developed and implemented phonics and elocution lessons to improve students' reading, pronunciation, and public speaking skills.
- Conducted speech training sessions to boost students' confidence and communication abilities.

Tutor (Advanced English Courses)

2018 – 2019

Volunteer

- Tutored 200-400 level students in advanced English courses, including Literature, Phonetics and Phonology, Semantics, Pragmatics, and Stylistics.

Languages

- English (Fluent)
- Yoruba (Native)

Research Interest

- Natural Language Processing (NLP)
- Multilingual NLP and Low-Resource Languages
- Computational Linguistics

Hobbies

- Touring
- Reading
- Football
